### **1. INTRODUCTION**

Investment abroad from India has emerged as a significant aspect of the country's economic landscape, reflecting its growing presence in the global market. Over the years, Indian businesses and individuals have increasingly ventured into international markets to diversify their portfolios, access new opportunities, and enhance competitiveness. This trend is driven by various factors, including favourable regulatory reforms, globalization, technological advancements, and the quest for higher returns.

With India's economy continuing to expand and integrate with the world, outbound investment has become a crucial strategy for both businesses and investors seeking to harness the benefits of international markets. As Indian companies expand their footprint overseas, they contribute to economic growth, job creation, and knowledge exchange, while also facing challenges such as regulatory compliance, currency fluctuations, and cultural differences. Therefore, exploring the dynamics, challenges, and opportunities of investment abroad from India is essential for stakeholders aiming to navigate the complexities of global investment landscapes effectively.

### 2. UNDER LRS ROUTE

#### a. Introduction

The Liberalized Remittance Scheme (LRS) has emerged as a vital avenue for Indian residents to diversify their investment portfolios and engage in international transactions. Introduced by the Reserve Bank of India (RBI), the LRS route allows individuals to remit a certain amount of money abroad annually for various purposes such as investment in overseas financial assets, education, travel, and acquisition of property. Since its inception, the LRS has provided Indian residents with greater flexibility and opportunities to explore global markets, enabling them to expand their financial horizons beyond domestic boundaries.

The LRS allows Indian residents to remit funds abroad within specified limits, subject to conditions and documentation. It promotes cross-border transactions, fosters economic integration, and facilitates global aspirations. Understanding its intricacies is essential for leveraging its potential for international investment while complying with regulations.

#### b. LRS Route

#### i. Number of family members and eligibility (NRI not eligible):

The LRS allows resident individuals, including Hindu Undivided Families (HUFs), to remit funds abroad. However, NRIs are not eligible. Each eligible resident individual, along with their family members, can utilize the LRS for various purposes.

#### ii. Proposed jurisdiction of LRS Account:

LRS accounts can be opened with authorized dealer banks in India. Remitters need to specify the jurisdiction where they intend to use the funds, ensuring compliance with regulations.

#### iii. KYC Documents:

Each eligible family member must submit KYC documents as per RBI guidelines, including proof of identity and address, to verify eligibility and comply with AML regulations.

#### iv. End use of funds:

Funds remitted under LRS can be used for stocks, education, medical expenses, property, or corporate vehicles abroad, as long as they comply with RBI guidelines.

#### v. Restrictions of LRS route:

This includes limitations on permissible activities, an annual threshold for remittances, reporting requirements for corporate vehicles, & prohibition on step-down investments.

#### vi. Foreign earnings/income through LRS:

Earnings abroad must be reported to RBI. Repatriation of proceeds is allowed s.t rules.

#### vii. Foreign income (outside of LRS):

Income like consultancy fees or overseas salary must be reported separately to Indian authorities and is subject to taxation.

#### viii. Documents/filings for remittance:

Necessary documents such as application forms and declarations must be submitted to authorized dealer banks for remittance transactions.

### 3. UNDER ODI ROUTE

#### a. Introduction

The ODI route serves as a strategic avenue for Indian companies to expand their global footprint and pursue business opportunities overseas. Regulated by the RBI, the ODI route enables Indian businesses to invest in foreign countries through various means such as M&A, joint ventures, wholly-owned subsidiaries, or setting up new ventures. This route allows Indian companies to leverage their expertise, resources, and market knowledge to explore international markets, access new technologies, and diversify their operations.

The ODI route allows Indian companies to access new markets, enhance global competitiveness, mitigate domestic market risks, gain exposure to diverse consumers, and boost international brand presence. Understanding this route is crucial for Indian businesses to seize global opportunities while navigating regulations and ensuring the success of overseas ventures.

#### b. ODI Route

#### i. Eligibility:

Indian entities such as companies, LLPs, and registered partnership firms are eligible for ODI. Permissible activities include mergers, acquisitions, setting up subsidiaries, joint ventures, and more, subject to RBI regulations.

#### ii. Jurisdiction of ODI:

Analysing various options from tax, regulatory, and commercial aspects is essential for determining the jurisdiction of ODI. This ensures compliance and maximizes operational efficiency for the Indian entity investing abroad.

#### iii. KYC Documents:

Each Indian entity, shareholder, and director involved in ODI must submit KYC documents as per RBI guidelines, including proof of identity, address, and other relevant information.

#### iv. End use of funds:

Funds remitted through ODI can be used for various purposes such as stock/portfolio investments, acquisition of immovable properties, or establishing corporate vehicles abroad, subject to RBI guidelines.

#### v. Restrictions of ODI route:

Restrictions include permissible activities, annual thresholds for investment, reporting requirements, and prohibition on step-down investments without reporting.

#### vi. Proposed corporate structure:

Planning the legal and functional structure of the overseas entity is crucial to ensure alignment with local regulations and business objectives.

#### vii. Proposed fund flows from/to India:

Careful consideration of fund flows from and to India is essential to avoid concerns regarding round-tripping and ensure compliance with RBI regulations.

#### viii. Documents/filings for remittance:

Necessary documents and filings must be submitted to authorized dealer banks for remittance transactions under the ODI route.

# 4. MIGRATION OUTSIDE INDIA or CITIZENSHIP OF OTHER COUNTRY

- Analyse individual status: Evaluate the role of the individual as a Promoter, Director, or Shareholder of the Indian entity to understand their legal and financial responsibilities.
- Assess implications for Indian structure: Examine the consequences of migration on the Indian structure before and after migration, including any changes in ownership, management, or operations.
- **Determine migration jurisdiction:** Identify the jurisdiction for migration and understand the associated legal and regulatory conditions to ensure compliance with relevant laws.
- **Submit KYC documents:** Provide Know Your Customer (KYC) documents as per regulatory requirements to verify the identity and eligibility of the individual migrating outside India.
- **Provide documentation for reasons/circumstances:** Prepare documentation explaining the reasons or circumstances for the migration, which may include personal or business-related factors.
- Plan post-migration operating structure: Develop a proposed operating structure for the individual's affairs post-migration, considering both legal and functional aspects to facilitate smooth operations in the new jurisdiction.
- Establish a model for 'control and management' of the new structure: Define a model for the control and management of the new entity or assets post-migration to ensure effective decision-making and compliance with local regulations.
- Plan fund flows from/to India: Outline proposed fund flows between India and the new jurisdiction, ensuring compliance with regulations and addressing any concerns related to round-tripping of funds.
- **Outline future fund raise initiatives and other plans:** Identify potential future fundraising activities or business plans post-migration to support the growth and sustainability of the individual's affairs in the new jurisdiction.
- **Prepare necessary documents and filings for remittance:** Gather all required documents and filings for remitting funds abroad, ensuring compliance with regulatory requirements in both India and the new jurisdiction.

# 5. INCOME TAX – SCOPE & OBLIGATION
